Dear Ms. Cunanan:

Mayap a aldo.

The *Katipunan da ring Talasaliksik at Talaturung Kapampangan (KATATAGAN), Inc.* thru the undersigned will be embarking on a project, which aims to encourage the access of Spanish archival materials and other publications for the advancement of research on local history and culture.

In line with this, we would like to create a directory of academic institutions, including Spanish instructors, within Central Luzon that are offering the said language.

The gathered information will be used for various purposes such as assessment of the state of Spanish language teaching, establishment of a network among instructors, seminars and conferences on the importance of the language in research. Further, we will be offering this information free of any charge to concerned and interested institutions.

We would like to emphasize that this project will be geared towards the use of the Spanish language as a tool in research. Since the Spanish colonization period played a great part in shaping the Philippine history, it is deemed inevitable not to come across with this subject in terms of historical and cultural research. With the vast collection of materials from the colonization period and series of studies conducted regarding the Philippines by Spanish researchers, local researchers are hindered from accessing these valuable resources due to lack of command of the language.

In this regard, we respectfully seek DepEd's endorsement of this data gathering project. Attached is the form to be accomplished by the colleges and universities.

For inquiries you may contact the undersigned at 09175587469 or charlenemanese@yahoo.com.

We firmly believe that this endeavor will be of great help in the professional development of our fellow researchers, whose research works will consequently benefit teachers and students.

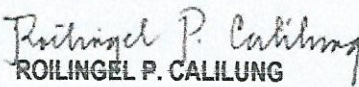

We hope that you will find this project parallel to the objectives of your good office.

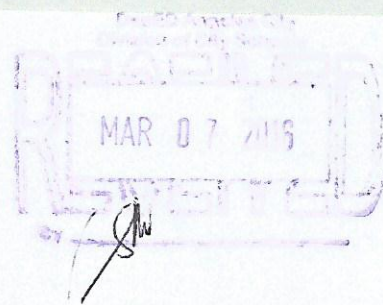

Dakal pung salamat! Lwid ya ing kulturang Kapampangan!

Respectfully yours,

Charlene P. Manese
