September 4, 2017

Malcolm S. Garma, CESO V

Director III
Officer-In-Charge
Office of the Regional Director

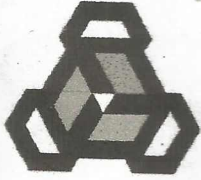

Dear Mr. Garma,

UP Circuit is an active, academic, non-profit and non-political student organization based in the Electrical and Electronics Engineering Institute (EEEI) of the University of the Philippines Diliman. The organization aims to promote academic excellence in the field of Electrical, Computer, and Electronics and Communications Engineering, and at the same time, encourage holistic development of its members through various activities within and outside the university.

With the tradition of promoting academic excellence, UP Circuit has been bringing together the country's top young minds in the field of Electrical and Electronics Engineering in a battle of wits and sharpness. **SquEEZe**, our flagship event, is the only **national intercollegiate EEE quiz show** in the country. Now on its 21st installment, this year's SquEEZe continues to bring set of events that will engage more challenges and excitement, not only for college students but also for high school students within the **National Capital Region (NCR), Region III, and Region IV-A** who are willing to compete and test their mettle against other schools. Participating teams will go through a written elimination round and only the top ten (10) teams will advance to the finals. Rigorous and difficult questions that require only the most accurate answers will test the remaining teams' capabilities until only the best remain and emerge as this year's SquEEZe 2017 High School Champions. Questions will be from fundamental concepts in Math, Science, and Basic Circuitry, which are essential topics in studying the field of Electrical and Electronics Engineering. These questions demand not only tremendous knowledge but also skill in analysis and problem solving. Furthermore, a workshop which aims to familiarize the participating high school students with the basic applications of Electrical and Electronics Engineering will be conducted, thus making them appreciate the field more. The said event is set to be held on **November 20, 2017** at the **P&G Room of Melchor Hall, University of the Philippines Diliman**.

In line with this, we would like to cordially ask for an endorsement from your office. This endorsement would greatly encourage students from different schools in the National Capital Region (NCR), Region III and Region IV-A to join and take part in this campaign of academic excellence that our organization wants to commence. With the endorsement of the Department of Education, we are hoping for a greater chance in extending this campaign to the bright minds of many young students.

We are looking forward to hearing a positive response from your office. For questions or concerns, please contact the undersigned event's heads or the head of Competition, Herlan Benitez (+63 932 866 2907). A copy of the competition handbook is also attached. We thank you in advance for taking the time to consider our request.

Very Truly Yours,

Jeremy Nicole Lapiz

Overall Co-Head, SquEEeze
