DIVISION ADVISORY

No. 180, s. 2018

To: Heads of Public Elementary and Secondary Schools

From: Schools Division Superintendent

Subject: Ocean Adventure Educational Trip

Date: July 31, 2018

RELEASED

AUG 01 2018

By DepEd Angeles City
Division of City Schools

This is to inform all concerned that Ocean Adventure, the first and only open-water marine theme park in Southeast Asia has envisioned to foster conservation through the exhibition of marine life in a natural setting. Their main goal is to enlighten children of all ages on how they can help to protect our environment.

School Heads who will avail of the tour package must strictly adhere to the provisions stipulated in DepEd Order No. 66, s. 2017 entitled "Implementing Guidelines on the Conduct of Off-Campus Activities".

Attached is a letter from Ms. Rica B. Fajardo, Sales Supervisor, Subic Bay Marine Exploratorium, Inc., for reference and information.

LEILANI S. CUNANAN, CESO VI

School Division Superintendent
Department of Education
Angeles City

Re : Ocean Adventure Endorsement Request

BY HAND

Dear Ms. Leilani,

Greetings from Ocean Adventure Subic Bay!

Ocean Adventure is the first and only open-water marine theme park in Southeast Asia. It is envisioned to foster conservation through the exhibition of marine life in a natural setting. We are not just to entertain but to educate everyone, working together to save animals and environment at the same time. Our main goal is to enlighten children of all ages on how they, too can help to protect our environment.

We will continue to Entertain, Educate and Empower students by supporting the K to 12 Basic Education through its educational and entertaining animal show. In line with this program we would like to re-introduce The Environmental Education Center (EEC Program) that offers students a wide range of educational activities. **We have various programs which are suitable to integrate to corresponding subjects** including Biology, Environmental Science, Psychology and Math. Each of these has been scrutinized, and great attention has been placed on identifying learning outcomes and alignment of these to Science practice for Biology and Environmental studies. The natural environment in Subic Bay faces the same challenges, to varying degrees, that other rainforests and coral reefs face throughout the world. It's a natural laboratory where students can embrace the programs.

Discover one of a kind artworks upon entering the Ocean Heart Gallery. The gallery has already drawn the attention of many schools and art enthusiasts expecting to be entertained and informed about the specific style or of painting. Moreover, it hopes to expand on its collection in the future to include more types of perspective art. Ocean Adventure has definitely added a fun and colorful dimension to otherwise drab park areas before.

We are seeking your support from your good office towards Ocean Adventure to be the venue of educational field trips for both public and private schools.

With your continuous support to our endeavor in educating, enlightening and empowering our youth, that we could make a difference in preserving our environment.

Thank you and we are looking forward for your positive response.

Yours sincerely,

RICA B. FAJARDO
