**SUBJECT: "CYBER SECURITY AWARENESS AND BREACH RESPONSE TRAINING"**

Dear Mam/Sir:

Greetings!

We are pleased to invite you and your personnel in HR, Finance, Admin, IT, Registrar, University Administrators, BAC Secretariat, University President, Principal, Head Teacher's, Dean's of Colleges and those who have access to personal data to attend to the the Cyber Security Awareness and Breach Response Training to be held on the training schedules stated below.

With the evolving hacking events around us, we can see the news regarding organizations being hacked around the world. Despite investing millions of dollars on technology, many of them avoid human factor that is the weakest link in Cyber security. Organizations recruit employees in different departments, but they cannot assume that they have enough knowledge about to secure official and personal data. Hackers are using sophisticated techniques to breach the network & server to steal confidential information. At that point, security training seems helpful to create awareness in employees as well users/customers. It is the duty of an organization to make their customers aware about basic security precautions for a safe browsing experience.

Cyber security awareness training is essential to reduce the risk that employees exposed and tricked by sophisticated phishing or social engineering methods into serving unknowingly as entry points or worst, breach incidents that can affect organization information and data systems. This training could also help the company/agency to respond in a security breach and comply with the necessary notification requirements under the Philippine Data Privacy Act.

The primary objective of the security awareness program is to educate users on their responsibility to help protect the confidentiality, availability and integrity of their organization's information and information assets. The participants will be able know the state-of-the art information about Cyber Security, it's importance, good practices and benefits to the organization. Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack and How can they respond to them.

During the training, the speakers will also confer on Breach simulation briefing and simulation of attack and a Breach Notification Requirements of RA 10173, a deep discussion on breach notification requirements under the DPA and Circular 16-03 and additional information on RA 10175 "Cybercrime Act"

Participants will take their time to report the results of their investigation on the given breach simulation, both technical and compliance report that is why we encourage you to form or create a Breach Response team (minimum number or three (3) or more participants) to be headed by the Data Protection Officer (DPO) to attend and participate on the "Breach Response Team Report.

Below are the training schedules: (please choose your training options)

SESSION	Training Fee (Live-out)	Training Fee (Live-in)
<b>DAY 1:</b> <ul style="list-style-type: none"> <li><b>MODULE 1 – INTRODUCTION TO CYBER SECURITY</b> (Know the state-of-the art information about Cyber Security, it's importance, good practices and benefits to the organization).</li> <li><b>MODULE 2 – KNOWING THE ATTACK VECTORS (PART I)</b> (Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack and How can they respond to them).</li> </ul>	Php 2,500.00/pax	Php 4,000.00/pax (inclusive breakfast)
