Dr. Nicolas T. Capulong ARD
OIC Regional Director
Region III (Central Luzon)

Dear Dr. Capulong:

Greetings!

More than 15 years ago a team of young and smart researchers at University of Turku, Finland embarked on a journey that would lead them to discover a better way to teach and learn Mathematics. They observed many failed attempts at applying digital tools to teaching the subject. A key finding was that available tools did not substantially help teachers with their core tasks of giving feedback, checking tests and marking exams.

This 18th of February 2020, we will be holding the Unlocking Finland Math Seminar at the University of the Philippines Bahay ng Alumni with Mr. Makke Leppanen, senior coach, author and mental coach of Finland Math: Eduten Playground as the main speaker. We cordially invite your Mathematics specialists to take part in this endeavor.

Registration is FREE. Please fill-out and send back attached Registration Form to avail the free registration.

If you have inquiries, please feel free to contact Wendell Paulo at 3411-5541 loc 112 or at marketing@genetic.edu.ph.

Sincerely,

Pinky B. Legaspi

Organizing Committee & National Partner - Eduten Finland Math
