ENGR. EDGARD C. DOMINGO, PhD, CESO VI
Schools Division Superintendent
Division of Angeles City

Dear Engr. Domingo:

Greetings of peace and good will!

The proper treatment and management of data are fundamental to ensuring the validity and reliability of research outcomes. However, many students face challenges in data handling, particularly in areas such as sampling, coding, and interpretation.

To address these concerns, the Angeles University Foundation - Graduate School, in partnership with the AUF Center for Data Analytics, Informatics, and Computing, proudly presents this year's first webinar series titled Mastering Data Treatment and Management for Research Success.

In line with this initiative, we respectfully invite interested public school teachers from the Division of Angeles City to participate in this enriching and practical webinar series. Below are the session details:

Session 1 (Feb 08): Handling Data, Including Sampling
- Importance of data management in research;
- Principles and techniques of sampling;
- The sample; and
- Addressing sampling errors and biases

Session 2 (Feb 15): Preparing Data for Analysis
- Handling and organizing data;
- Challenges in data collection and the data set
- Introduction to software tools (e.g., Excel, SPSS) for data analysis and visualization

Mode of Delivery: Online (via Google Meet)
Resource Speakers: Mr. Francis Gian Yutuc and Mr. Jed Micko Mewag
