REGISTRATION GUIDE REGULAR TRAINING COURSES OF SEAMEO QITEP IN SCIENCE 2018

A. General Description

SEAMEO QITEP in Science conducts training courses for science teachers and educational personnel in Southeast Asia every year. We grant scholarship for 30 selected participants (free charge of programme, accommodation, meals, and transportation during the training).

In the regular training courses, we only provide slots for 30 participants consisting of 20 participants from Indonesia (selected by SEAMEO QITEP in Science) and 10 participants from other SEAMEO Member Countries (selected/nominated by Ministry of Education in the respective countries).

The trainings that will be held in 2018 are:

1. Earth and Space Science (Code: ESS)

Bandung, 10-19 July 2018

Training Course on Earth and Space Science aims to increase teachers' comprehension in the concept of earth and space. This training consists of material session and hands-on activities that will be applied by teachers to increase the quality of students' learning. It is expected that after attending this training, teachers are able to guide students who will participate in earth and space science olympiads.

Intended for: physics and geography teachers in senior high schools.

2. Environmental Education for Sustainable Development (Code: EESD)

Bandung, 10-19 July 2018

Training Course on Environmental Education for Sustainable Development aims to share best practice activities related to environmental knowledge, ability, and values, and also to integrate sustainable development issues in science learning for the students. It is expected that after attending this training, teachers could be agents for environmental sustainable development in society.

Intended for: elementary school teachers.
